

BACK-EZE® Lumbar Cushion

DVA RAP code **AE01**

Features:

- Back-Eze® Lumbar Cushions are designed to correct posture and alleviate back pain.
- The curved vertical and horizontal design, helps the spine to maintain the correct 'S' shape, while at the same time, providing support against lateral movement.
- The cushion is made from high-quality foam, which maintains its correct shape at all times.
- The cover is a stretch synthetic fabric with zip for removal.
- An optional harness strap attaches the cushion to a chair back (vertically or horizontally).

Application:

- The Standard model (image on right) suits most people and is recommended for use in the car.
- The Mark II (image on left) is for the larger user, and is also suitable for those with a smaller curve in their lower back.

Code	Description	Dimensions (cm)
ART021	Standard	31 h x 36 w
ART022	Mark II	33 h x 36 w
ARTHAR	Harness	

BACK-EZE® Sit-On Cushions

DVA RAP code **AE05**

Features:

- The Back-Eze® Wedge Cushion has a 9 degree angle which encourages correct pelvic tilt, thereby reducing spinal strain.
- The Coccyx Wedge is the same, but features a cut out at the rear to ease pressure on the tailbone and anal area.
- The Coccyx Flat Cushion (not pictured) does not have any tilt, but has a cut-out area relieving the pressure on the tailbone and the anal area.
- Covers are of a stretch synthetic fabric with zip for removal.

Code	Description	Dimensions (cm)
ARTWEDGE	Wedge	40 w x 33
ARTCOCCYX-W	Coccyx Wedge	40 w x 33
ARTCOCCYX	Coccyx Flat	40 w x 33

OBUS FORME® Back Supports

DVA RAP code **AE01**

Low Back

High Back

Features:

- The ObusForme® Backrest Support, is scientifically proven to decrease pressure on the back by 35% and increase comfort while sitting.
- Available in:
