**Rolyan polycentric hinged ulnar deviation splint**

**Features:**
- this splint leaves the palm free for gripping objects
- the polycentric hinge allows full flexion and extension of the fingers
- padded finger stays are malleable for ease of application and to provide optimal alignment
- ideal for use following MP arthroplasty

**Application:**
- recommended for persons with MP ulnar deviation that can be corrected with mild to moderate force

Measure width from the 2nd to 5th MP to size.

---

**Rolyan radial hinged deviation splint**

**Features:**
- soft finger straps permit each finger to be individually aligned for maximum control
- lined in soft felt, dorsal based splint leaves palm free for function

**Application:**
- this splint can be used to improve the alignment of strongly deviated fingers to improve alignment

---

**Rolyan Comforter splint**

**Features:**
- the Comforter splint holds the wrist and MP joints of the fingers in neutral to reduce stress on muscles and tendons
- malleable padded stays allow each finger to be individually aligned
- IP joints are free to allow the wearer to manage bedding and nighttime activities
- the softly padded cover is removable for washing

**Application:**
- provides rest to reduce inflammation and morning stiffness caused by rheumatoid arthritis

---

**Rolyan hand-based in-line splint**

**Features:**
- MCP support straps have reinforced neoprene to prevent over-stretching caused by continual use
- finger straps support each finger individually
- 2.4mm neoprene gives needed support without bulkiness
- neoprene fabric retains warmth, increasing comfort
- hand washable
- latex free

**Application:**
- support of MCP joints

**Oppo 3280 Mallet finger splint**

**Features:**
- supports the DIP in extension, while permitting unrestricted movement of the PIP joints
- tape may be required to make sure splint stays in place
- easy to check fingernail and skin color

**Application:**
- mallet deformity
- DIP hyperextension
- collateral ligament sprain

**Oppo 4280 Baseball finger splint**

**Features:**
- help stabilise the phalangeal joints in position
- malleable aluminum splint can be reshaped to hold finger at an exact degree of flexion or extension
- provides firm support while injury heals

**Application:**
- finger fracture
- ligament strain
- finger deformity
- arthritis

**To Apply:**
- put finger on the finger splint, then bend the aluminum splints inwardly to fit the finger
- tape may be required to make sure splint stays in place

Length of finger (cm).
Oppo 4282 Curved finger splint

Features:
- lined and padded with soft, ventilated material
- curved finger splints support and protect dislocated fracture
- upward curve at the tip to protect the end of the finger

Application:
- ligament strain
- finger deformity

To Apply:
- place finger on the finger splint with foam facing the skin
- use tape to make sure splint stays in the finger

Product Code | Size | Length
---|---|---
OPP4282 1 | S | 7
OPP4282 2 | M | 10
OPP4282 3 | L | 13

Length of finger (cm).

Oppo 4281 Frog finger splint

Features:
- foam padding assures comfortable fit.
- malleable aluminum splint folds to grip finger.
- maintains interphalangeal joints in correct position

Application:
- ligament strain
- finger deformity

To Apply:
- put finger on the finger splint, then bend the aluminum splints inwardly to fit the finger
- tape may be required to make sure splint stays in place

Product Code | Size | Length
---|---|---
OPP4281 1 | S | 6
OPP4281 2 | M | 7
OPP4281 3 | L | 8

Length of finger (cm).

Oppo 4283 Open thimble splint

Features:
- malleable aluminum splint for immobilization of finger
- protects and stabilizes fractures of the distal finger joint
- encloses finger injuries and protects on four sides

Application:
- ligament strain
- finger deformity

To Apply:
- put finger into the finger splint, then bend the aluminum splints inwardly to fit the finger
- tape may be required to make sure splint stays in place

Product Code | Size | Length
---|---|---
OPP4283 1 | S | 5.5
OPP4283 2 | M | 6.5
OPP4283 3 | L | 7.5

Length of finger (cm).

Oppo 4285 Finger splint

Features:
- lightweight aluminum protects injured finger
- ventilated foam padding
- folds over the end of the finger to provide protection and stabilization

Application:
- ligament strain
- finger deformity

To Apply:
- put finger into the finger splint, then bend the aluminum splints inwardly to fit the finger
- tape may be required to make sure splint stays in place

Product Code | Size | Length
---|---|---
OPP4285 1 | S | 5.5
OPP4285 2 | M | 7.5
OPP4285 3 | L | 9.5

Length of finger (cm).
